Edline: An online partnership between teachers and parents

Our mission is to partner with you in the Christian education of your child. Communication between faculty and parents is key, and one of the most effective tools we use to do this is Edline. Edline is an online information resource that provides you with your child's current grades and assignments in every class.

Teachers post updated class information on a weekly basis, so you can know how your child is doing in every class at all times.

In addition, you can access the school calendar, find out detailed information about upcoming events, and order Scrip.

Log on to **edline.net** today to check in on your

child's academic progress and quarter grades!
